Support Services:

<p>Special Education students who have applied to the GACTC are selected on the same criteria as those within the Regular Education realm which is based upon good grades, acceptable attendance, and appropriate behavior. For students with special needs, the support coordinators are able to scrutinize IEPs so that appropriate program selection accentuates student strengths and career interest avenues. The support coordinators support both teachers and students throughout the school year to ensure that specially-designed instruction modifications are being used in the regular education setting to facilitate student success within their vocational education experience.</p>

Career & Technical Student Organizations:

<p>Students in the Carpentry/Construction program are affiliated with SkillsUSA CTSO and have an active Chapter.</p>

Advisory Committees

<p>Local Advisory Committee: The Greater Altoona Career & Technology Center complies with all mandates of the state, federal, and accreditation bodies to maintain a Local Advisory Committee composed of representatives of education, industry, business, joint apprenticeship councils, labor, and management. The purpose of the committee, which has been in existence for nearly four decades, is to advise the school board and the administration concerning the general philosophy, objectives, and program needs of the school. The Local Advisory Committee of the Greater Altoona Career & Technology Center meets twice yearly. Administrative Advisory Committee: The Administrative Advisory Committee, consisting of the Superintendent of Record along with superintendents of the other six member school districts, meet on a monthly basis to work with the Executive Director on educational matters concerning the center. The committee plays an integral part in the development of the center's Strategic Plan. All Superintendents of the participating school district serve on this committee. The Committee is authorized to form its own structure and schedule for meetings and to prepare whatever reports on recommendations it deems necessary for review by the Joint Operating Committee. The Chief School Administrator and the Executive Director serve as ex-officio members of all committees established by the Joint Operating Committee. Joint Operating Committee: The JOC, an 18-member body comprised of representatives from each of the seven sponsoring school districts, meets the fourth Monday of each month. For an institution governed by a Joint Operating Committee, the most obvious stakeholders are the seven sponsoring school districts. It is imperative that the director and school administration work in harmony with the Joint Operating Committee representing the seven school districts that make up the aggregated board. This institution is the only focal point where these seven school districts come to work together in the best interest of a substantial representation of their student population.</p>
